

FULLY FUNDED TECH TRAINING & CAREER SERVICES

MAX Technical Training is a proud provider for Ohio's Individual Microcredential Assistance Program (IMAP), which fully funds technology training for eligible Ohioans. Eligible students can build in-demand skills through five available technology upskilling pathways, guided from enrollment through completion, and supported with career workshops designed to help each graduating student reach out to the workforce community with their new skills.

FUNDING IS LIMITED AND FIRST COME FIRST SERVE

SELECT THE PATHWAY THAT FITS YOU BEST

We encourage you to complete the eligibility application to be considered for the 2026 IMAP grant program. The IMAP grant funding is dedicated to the unemployed, underemployed, partially employed, low income, and job transition candidates that feel passionate about one of the five following technical upskilling pathways.

■ DIGITAL BUSINESS PROFESSIONAL

3.5 DAYS

Build your core computer skills in Microsoft 365 productivity apps. Confidently manage and organize data. Begin your AI journey with Microsoft Copilot and Copilot Chat in Office 365 productivity apps.

■ DATA AI ANALYST

7.5 DAYS

Advance your capabilities and skills in effectively organizing, managing, and presenting complex data from database to dashboard. Take a dive into Microsoft Copilot AI and shift into data science with Power BI.

■ AI COPILOT FOR M365 USERS

4 DAYS

Learn how to use Copilot to enhance productivity in everyday work, build and manage no-code agents, and design, deploy, and enhance custom copilots using Copilot Studio. The course balances foundational knowledge, hands-on labs, and strategic use cases.

■ BOOKKEEPING AND ACCOUNTING CLERK

3 DAYS

This pathway builds the practical, day-to-day skills finance teams rely on: processing transactions, maintaining accurate records, reconciling accounts, and preparing routine reports.

■ AI FOR SOFTWARE DEVELOPERS

2 DAYS OR 5 DAYS

You'll build hands-on experience extending Microsoft Copilot and developing custom AI applications and agents on Azure. Skills specifically aimed at developers, including those affected by recent workforce reductions, who need to show employers they can build with today's AI tools.

CAREER SERVICES

Completing your full IMAP Career Pathway unlocks up to 20 hours of graduate IMAP Career Services. We want to reward the hard work and dedication of those who complete the full pathway and they will connect with our career prep team to shift their career trajectory.
