

Join Us For The Premier Workforce Summit For Manufacturers In Southwest Ohio.

We're only as strong as the community we build. And that includes its workforce.

The MFG Strong Workforce Summit is a manufacturing event focusing on workforce development. Created by TechSolve, this summit will connect Southwest Ohio manufacturers with actionable workforce solutions and insights to boost their hiring, retention, technology implementation, and talent development strategies. Some of the industry's brightest will gather to discuss the future of the workplace, and how to focus resources to build a stronger company culture to develop a more committed and sustainable workforce.

Connect with the best resources in Ohio, and learn about workforce solutions that manufacturers can implement immediately. Together, we can support the region's workforce development and keep Ohio's manufacturing competitive through its people.
