TORIN ELLIS

Advisor, Consultant, Coach, & Speaker

Torin Ellis (TE) leads a progressive HR boutique with a focus on diversity and inclusion. We empower our partners' talent function through a comprehensive catalog of human capital solutions to ensure they effectively attract, nurture, and retain the most dynamic talent necessary to not only meet, but transcend their business vision.

TE pairs its diversity talent management methodologies with a key understanding of today's business challenges and opportunities – designing proprietary, advanced, data-driven and high-impact talent and organizational strategies.

TE is deeply rooted in the space and our client partners enjoy access to an extensive network of relationships nurtured over time. These networks and relationships result in privileged access to a wide range of resources and talent. This will come in handy depending on findings as we are able to adjust and quickly identify resources (people/portals) required to move an engagement forward.

Our collaborative talent approach is built on transparency, objective clarity, actionable strategy, precise execution and rigorous performance monitoring – it's the reason some of the world's most forward thinking companies – Cielo, Nike, ESPN, Redfin – have relied on us to solve their DEIB equation.

TE pairs risk mitigation and talent management methodologies with a key understanding of today's business challenges and opportunities.

- Designing proprietary, data-driven and high-impact team building strategies.
- Achieved through DEIB discovery within various value points of the business.
- Such as Employer Brand, Learning & Development, Talent Acquisition, and Board Governance.
- Resulting in higher engagement, increased productivity, and lower attrition all significant to the bottom line.
